TERMS OF SALE

EXTRA BULBS—You may select additional to your order, BULBS of your own choice as follows: On orders from \$2.00 to \$5.00 select bulbs to the value of 10% of your order. From \$5.00 to \$25.00 select 15%; from \$25.00 to \$50.00 select 20%; and above \$50.00 select 25%. These extra bulbs are not given on **SPECIAL COLLECTIONS**.

Get your friends and neighbors to combine their orders with yours and send it as one order. The total amount, being greater than that of a single order, more extra bulbs will be available which can be divided with your friends.

VARIETIES IN THIS LIST ARE OFFERED SUBJECT TO PRIOR SALE and quotations are for cash with order. However, 25% payment with order will reserve for delivery until April 15th, balance to be paid before shipment or by C. O. D.

It is advisable to name a second choice in your order, so if the first cannot be had, your second selection may be supplied. I do not substitute, but will return your money if sold out of a variety, unless advised otherwise. Bulbs are of the best quality and free from disease. I use great care to prevent mixtures, for it is my intention to keep each variety **TRUE TO NAME**. However, should any error occur, advise me as soon as it is discovered and the matter will be promptly and cheerfully adjusted to your complete satisfaction.

All orders will be sent postpaid, except C. O. D. and quantity shipments, which will travel at customer's expense. And full cultural directions will accompany each order. The bulbs will be packed and delivered for transportation with the greatest care. I cannot assume the responsibility for damage during transit. In any such instance, a claim should be made to the carrier.

Remit by Postal Money Order, Bank Draft, or Certified Check. If your order comes from outside the United States, please remit by draft drawn on a New York Bank or by an International Order made out in American Money. Postage stamps cannot be accepted as cash.

PLEASE DO NOT SEND AN ORDER FOR LESS THAN \$1.00. I appreciate small orders, but on those for less than the above amount I lose money.

WOOD LABELS

Wood labels are indispensable to gardeners who keep accurate records of their plantings. Pot labels are useful in seed flats, seed beds, or flower pots. Wired labels are valuable for tagging seedlings and rogues, or to label individual plants, flowers or shrubs. Each type of label is made in two styles, plain and painted. The painted labels have one side painted to receive the notations, etc., which may be made with waterproof ink or with a soft lead pencil.

GARDEN STAKES

These are approximately $\frac{7}{8}$ " thick, $1\frac{1}{4}$ " wide, and 15" long. Each stake is dipped in the best grade of white paint. I use these stakes in my commercial plantings and have found them very satisfactory. The desired notations are made in the paint with a soft lead pencil and will be legible for several years. These stakes are useful to mark the rows of garden plantings, or to maintain the identity of large perennial border plants, shrubs, etc. They are most attractive and add an atmosphere of order and dignity to plantings in which they are used.

POT LABEL 3½ INCH WIRED LABEL

GARDEN STAKE

50 sold at 100 rate—500 at 1,000 rate. Labels in dozen quantities prepaid. Larger quantities are not prepaid. And garden stakes are not prepaid for any quantity.

DELPHINIUMS

The plants offered will produce gorgeous single and double flowers of light and dark shades of blue, purple, violet, etc. Set the plants in rich, deeply prepared, well-drained soil in full sunlight. After the first blooms have gone, cut off the old flower stems about three inches above the soil and a second growth of flowers will develop. Strong one year old plants, 40c each, \$4.00 per dozen. Seedling plants, 10c each, \$1.00 per dozen, \$6.00 per hundred. Six plants at the dozen rate and 50 at the hundred rate. These plants will be sent prepaid.

STANDARD COLLECTION. This is a mixture of commercial varieties and the accidental "spills" that are bound to happen. The separate varieties are not labeled. These bulbs will produce a good variety of types, sizes and colors. Bulbs 1" and larger, doz., 25c; 50 for \$1.00; 100 for \$1.75.

PREFERRED COLLECTION. An assortment of special varieties that appear in my list, but the separate varieties are not labeled. If you are partial to any color, mention it and I shall make the selection so that varieties producing flowers of the stated color will predominate. Bulbs 1" and larger, doz., 50c; 25 for \$1.00; 50 for \$1.75; 100 for \$3.00.

Foreword

As this list is presented I desire to thank my customers for their patronage in past seasons. And I acknowledge the testimonials of the success attained with bulbs that were purchased from me. These expressions of goodwill are appreciated. And it is my intention to merit continued support by supplying products of superior quality, accompanied by courteous and efficient service.

To meet business conditions my usual illustrated book is replaced by this "RECONSTRUCTION" list. And bulb prices have been materially lowered. The more recent introductions, as well as many of the standard varieties that were formerly regarded as expensive, may now be obtained for a very modest sum. As a result my customers are enabled to continue in the joy of their "Glad fascinations", and also to spread happiness and cheer with their flowers, without the least apprehension of extravagance.

Bulbs are listed in two sizes, 1¼" and larger and ¾" and larger. Bulblets are also listed. The 1¼" bulbs will produce excellent large blooms that develop earlier than those grown from smaller corms. The ¾" size will bloom but the flowers will be smaller and will open later than those from large bulbs. Bulblets will not ordinarily bloom the first season. These are offered to enable customers to obtain stocks of varieties at a minimum.

My offerings are again classified under their recognized types, i. e., the Grandiflorus, the Primulinus, and the Primulinus-Grandiflorus. And after the name of each variety is stated in abbreviation, its type. The Grandiflorus type comprises the large flowered sorts with widely opened flowers produced on heavy, thick stems. To the Primulinus type belong the smaller flowered varieties, of extremely delicate colorings produced on slender, wiry stems. The Primulinus-Grandiflorus type combines the large size and dignity of the Grandiflorus with the graceful growth and beauty of the Primulinus.

Prices quoted are for retail orders. If some varieties are desired in quantity, advise me and I shall quote quantity prices. Should you require sorts that I do not list—let me hear from you regarding them and I shall try to secure them for you.

Five bulbs may be purchased for one-half the price of ten. If you use bulbs in other sizes than those quoted, prices can be arranged by correspondence.

NAME	DESCRIPTION	1¼"		¾"		Bulblets	
		Each	Per 10	Each	Per 10	Per	Price
Ada De Poy (P.)	Clear apricot, with bronze shading. Long spikes with eight to ten flowers open.....	.10	.90
